Their work helps to create thriving, healthy communities now and for future generations. They create and expand parks and preserves throughout Northeast Ohio; partner with public and private landowners to place permanent protections on their land, whether it may be a beautiful natural area, a working family farm, or a site with historical significance. They also restore blighted urban properties into useable greenspaces, improving neighborhoods and greening cities.

Announcements followed by Noon Luncheon of Apricot Glazed Chicken, salad, and vegetables. There is a vegetarian option of Stuffed Shells. Coffee, tea, and water provided.

1:00 PM A Study in Color

Presented by The Cleveland Flower Arranger's Guild based on book of poems *Hailstones and halibut bones,* authored by Mary O'Neill. With a compelling sense of rhythm and images that are clear and fresh, Mary O'Neill explores the color spectrum in twelve poems about distinct colors. Each dimension of color is discovered and transformed with striking illustrations by artist Leonard Weisgard in the book. The Guild will present a reading of each poem with the color interpreted in a Floral Design.
